for your special occasion*

HOW TO BOOK AN EVENT

Contact me by email or phone with the following information:

- Your name, email address and phone number
- Event date and time
- Event location: site, address, and indoor or outdoor
- Instrument preference: Harp, Piano, or Organ

If Your Event Is A Wedding:

We will set up a time for you to come to my home studio for a consultation, where we can meet and where you will be able to hear live music and select your processional and recessional and decide on the type of music you want for your wedding.

You will confirm your booking with a \$50 deposit (non-refundable if you cancel) and a signed agreement. Balance is to be paid two weeks before your wedding.

If Your Event Is Not A Wedding:

I will send you an agreement letter, and you may confirm your booking by returning the signed agreement with a \$75 deposit and balance due onsite before the event begins. (For non-wedding events less than three weeks away, special arrangements for deposit will be made on a case-by-case basis.)

About Prelude Music for Weddings

- ♪ *Unlike many other musicians you may have encountered, I like to be early for your event! If I am playing harp, I will arrive about 50-60 minutes before to set up and tune, and will begin playing when your first guests arrive for seating so that they may enjoy background music while they are waiting. If I am playing piano/organ, I will arrive 40 minutes before.*

Sound Amplification

- ♪ *Amplification:* Although the sound of the harp carries well on its own, I can provide a small amplifier/ speaker for larger areas. Amplification merely projects the sound farther for larger groups of guests, but does not distort the effect of the harp music.

HARP at Outdoor Events

- ♪ *There are several necessities for the safety of the harp:*
- 1) *Floor* must be smooth and level where harp sits; if your event is on the grass or on a bumpy surface, please let me know so I can bring a level surface.
 - 2) Tent, awning, patio cover, or other shade must be provided (harp cannot be exposed to direct sun).
 - 3) An alternate indoor location must be planned in case it rains.
